

## Feedback on Pro Bono Programme for Law Students

A survey of law students from the NUS Faculty of Law and the SMU School of Law who participated in the Pro Bono Programme for Law Students was conducted in 2017. The results of the survey have been encouraging, and we present some of the key findings below:

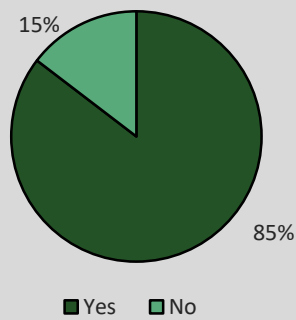

Did the respondent contribute beyond the mandatory requirement?

Was the pro bono experience helpful in developing the respondent's understanding of the practice of law?

Has the pro bono work complemented the respondent's study of the theoretical aspects of law?

Is the respondent likely to provide pro bono services in future?
